CERTIFICATE OF RoHS COMPLIANCE

June, 2010

Re: RoHS Compliant Products (European Directive 2002/95/EC)

This is to confirm that our products are not intentionally manufactured with any of the noted substances (Lead, Mercury, Cadmium, Hexavalent Chromium, polybrominated biphenyls (PBB) or polybrominated diphenyl ethers (PBDE)) and thus compliant with European Directive 2002/95/EC (also called the RoHS directive). Further, if any of the noted components were present, they would be at only trace levels [less than 20 ppm] as an impurity, significantly below the established maximum concentration values of the Commission Decision 2005/618/EC of 18 August 2005, amending Directive 2002/95/EC.

Trusting this information is helpful in streamlining your RoHS compliance responsibilities.

Sincerely,

A handwritten signature in black ink, appearing to read "Kiran Patel", with a horizontal line underneath.

Kiran Patel
Vice President
